is rumored, some action will be taken

one way or another, upon the status of the Union Race Course in this city.

Union intends to apply for dates again

this year, and will doubtless ask for thirty days. This announcement has been made

be manager of the Union avenue track next season.

Aid was asked of Louis Cella yesterday, a committee of three members from the course calling upon him and asking him to use his influence to have the track placed on the list of those courses which will receive dates. Mr. Cella stated track, personally, he had no objection to so doing, but that he did not know what effect his vote would have in the Chicago body. Former Associate Judge Walsh of Union, who was reported as being harred from the Crescent City track, was only disqualified in aname. While he is not recognized as an official of the Union track, le is in good standing as a turf correspondent and attends to his work as usual at the Bush track.

Tuesday afternoon.

This shut off the new room for the time being. At least it crippled the service, but notwithstanding this drawback the new room is said to get quite a big play. As the men that control the Covington poolrooms are also in centrol of the National News Company, there is little danger of the new room getting a wire from that source. There is a chance that the Western Union may come to Weaver's aid, it is said, if he is inclined to enlarge his scale of operations.

Tod Sloan was in Chicago last week en route to the Coast, where he will go with 'Muggsy" McGraw. The latter intends to book out there, but just what Tod will do is a question. The little jockey ex-pressed great satisfaction over the ver-dict he obtained in the lower courts of France against the Jockey Club, and he hopes to be reinstated before long.

Clem Jenkins is at Frisco and will mos likely be seen in the saddle before long. "Chub" Russell, who was third on the list of riders in Austria, is taking mounts. Eddie Holmes, who can ride at 94 pounds, and rode nine winners in Austria, is also looking for mounts.

Vanquisher of Charley Neary in

other Match.

JOHN REGAN ALSO RETURNS.

Bantam, Who Lost Verdict to Monte Attell, Will Train With Willie in St. Louis County.

Charley Neary, Willie Fitzgerald reached the city yesterday morning and is now slated for a maich at the West End Club

scheduled as an opponent. While nothing definite has been done in the way of selecting his antagonist, there is every prospect that Eddie Hanlon of San Prancisco or Jimmie Briggs of Boston will be chosen. Both men are anxious to come here, and it rests with the club

some good man in his own division being

officials which will be selected. Fitzgerald looked in the best of trim when he reached the city and showed no signs of his recent battle. Speaking of

his affray in Chicago, he said: "Neary is a tough enough customer, but I let up on him in the last two rounds. didn't have a mark to show for the fight while he was badly marked up. We both missed the train at Blue Island and had took his defeat gamely enough and we are matched for a return fight in Milwaukee

"Without saying anything to his discredit, I believe I could have stopped him in the last round. I had him staggering about the ring and could have put him

about the ring and could have put him away. I didn't want to risk hurting my hands, however, so I didn't let go. I have another fight or two in prospect and have to keep my mitts in good order.

"The club here wants me to fight some good man in my class. Any of them are good enough for me. Johnny Reid, who is handling me, wants me to fight Yanger, Hanlon or McClelland. He tried to make a match with any of the three. We haven't heard from Hanlon, as yet.

"Yanger wants a weight that he knows is impossible. I'm a light weight, and don't claim to be a feather weight. Yet he wants me to do 124 pounds. McClelland wants me to do 124 pounds. McClelland wants me to do 125 can't do either and am free to admit it. Both boys know it. I would like to fight either of them, but they don't seem to want my game."

Johnny Regan returned from Chicago with Fitzgerald, and the entire delegation will go to Roth's Grove, on the Olive Street road, to conduct their training Street road, to conduct their training. Regan will serve as Willie's sparring partner in preparing for the coming, match, whoever may be Fitzgerald's opponent. Regan lost the verdict to Monte Attell at the Blue Island Cub and is anxious to get on in a return match over a slightly longer route. He claims that he tried to spar at long range, thus giving to Attell a chance to score by making numerous leads. Reid will manage Regan while he is in this city.

That either Benny Yanger and Attell or Yanger and McClelland may figure in a match at the local fight institution shortly is the promise of reports sent from Ch Yanger is now in that city, while lland is in Pittsburg, ready to start McCielland is in Pittsburg, ready to start for St. Louis.

Yanger and McCielland are both ready to battle, and there is some chance that the two may clash locally. With the shut-ting down of the Blue Island Club by the authorities. St. Louis becomes an im-portant factor in the pugilistic world.

CHAS. A. DUFF, M. D.,

Nine specialists out of ten use unscientific methods and resort to guesswork in treating their patients, which results in the many there are who are not only disappointed, but lose their money. Have you made a great mistake in not getting skilled treatment, being attracted by "liberal" offers of payment, "bargain cures" and "low prices" of unscientific specialists, instead of seeking a cure by scientific methods, only by which you will ever be cured?

ods, only by which you will ever be cured?

Dr. Duff's Pelvic Methods are scientific, therefore they produce quick, everiasting cures. I employ only scientific methods, and depend on no worthless electrical devices, and for this reason I make more cures than all other specialists in St. Louis. I can afford to cure for less than others; and why I say to diseased men, come to my office, as others who failed to get cured elsewhere have done, and get the quickest, surest, cheapest cure obtainable, from the most skilled specialist in the United States, and only Pelvic Specialist in St. Louis.

Washington, Nov. 30.-Russia is unwilling to join the Powers in a second peace rence at The Hague until her war with Japan is ended.

The Russian reply to Secretary Hay's circular note to the Powers of October 23 last, inviting them in the name of the President to reassemble in conference at The Hague, "to complete the postponed work of the first conference," was delivered verbally to Secretary Hay to-day by Count Cassini, the Russian Ambassador, The Ambassador was requested by his Government to say that Russia heartily accepted, in principle, the invitation to a gladly associated herself with the Amer-

did not consider the moment opportune for the convening of such a conference, and it, therefore, must withhold its formal acceptance of the invitation until the war in the far East was at an end.

Secretary Hay and Count Cassini were in conference for nearly an hour. The Ambassador was careful to assure the Secretary that his Government welcomed the invitation of the President as an additional evidence of the American Government's appreciation of the beneficent results of the first conference, and regretted the necessity of suggesting a post-ponement of the work then begun—a work in which the Russian Government no less than the American is keenly interested.

Secretary Hay thanked the Ambassador for the cordiality with which the declaration of Russia's adherence in principle to the proposition had been conveyed to the American Government, and assured him he would forthwith transmit the reply to the President. and it, therefore, must withhold its form-

CORN CROP WAS NORMAL. Fall Plowing in Illinois Delayed Because of Long Drought. REPUBLIC SPECIAL.

Springfield, III., Nov. 33.—The following crop bulletin, covering conditions existing in Illinois in the month of November, was issued to-day by William E. Burns. Drector of the Illinois Section of the Weather Bursau, United States Department of Agriculture:

er Bureau, United States Department of Agriculture:

The mean daily excess in temperature averaged about 3 degrees. Except cool periods of short duration, about the 10th and the latter part of the month the temperature was above normal. There was almost a total absence of minfail, a continuation of droughty conditions prevailing through the preceding month.

While the weather has been unfavorable for erases and fail-sown stain, the most favorable conditions have prevailed for husking and seven and sold the same of the conditions have prevailed for husking and the being continued of a considerable amount marketed. The crop is generally well matured, there being but little unrips at the time of coming of killing frost. The principal damage ensued from programing winds in September, but the proportion injured is inconsiderable.

Wheat still maintains a rood condition, but is much in need of rain. The crop has made slow growth on account of lack of sufficient moisture. Rwe is also backward.

Pastures and new-rown mendows are not doing well. Evatures are short in most sections and entirely hare in some.

Stock is renerally in healthy condition. A few cases of hog cholers were reported.

Apples are keeping well in the northern counties, but much complaint is made of rotting in other sections.

RHEUMATISM

Several years ago I was afflicted with octors called Sciatic Rheumawhat the doctors called Sciatic Rheumatism, or Lumbago, suffering the most intense agony at times, and being confined to my bed about a year, although four of the best physicians (one of whom was my father) attended me during my illness.

They could give me only temporary relief, and I think they tried about all the remains known to medical science during

tried about all the remedies known to medical science, dosing me with strong medicine until my stomach got into such a condition that I could digest nothing, and neither myself not my friends had any hope of my recovery. I was persuaded to try S. S. S., and before finishing the first bottle I found that I had the right remedy. I continued to take it until it cured me perfectly. This was about nine years ago, and I have been in splendid health ever since.

J. D. MANSON.

I was terribly afflicted with Rheums tism for eighteen months, and during my sickness tried the skill of many good physicians, all of whom pronounced my case nopeless. I was for a year in such a helpless condition that I was unable to dress or feed myself. I had filled at dif-

ferent times 52 prescriptions suggested by friends, none of them giving me any relief. I finally decided to include S. S. S., and took the first dose while hobbling about on crutches. After taking two bottles I found so much relief I was able to relinquish the use of one crutch, and a faithful continuance of the medicine relieved me of the other crutch, and shortly afterwards enabled me to go to my work. I have had no return of Rheumatism, although this was five years ago.

Murfreesboro, Tenn. Fiery liniments, drawing plasters and penetrating oils never cured a case of Rheumatism; because it is not a local or skin disease, but a disease of the blood caused by a sour, acid condition of that vital fluid. The kidneys and bowels get weak, the liver torpid, and the poisonous accumulations that should pass off through the usual channels of nature are absorbed by the blood and distributed into the muscles, joints and nerves through the circulation, producing inflammation and swelling of these parts, excitement of the nerves and other painful and disagreeable symptoms of the disease. Rheumatism sufferers look with dread upon the winter season with its damp, cold, changing weather, for the first slight exposure is liable to bring on an attack, and the sharp, cutting pains and feverish, swollen joints and muscles make life miserable with almost unbearable torture. often give relief for a little while, but can do no permanent good, because the trouble is not within their reach; and even while the symptoms are being relieved by such treatment the blood is becoming more heavily charged with the uric acid poison, and the next attack will be more severe. S. S. S. cures this disease by arousing to proper action all the sluggish organs and going into the blood, driving out all the acid and poisonous matter, renewing and strengthenash or other harmful minerals, but is purely vegetable and is recognized everywhere as the surest and safest blood
